

MYCRICKET SCORING GUIDE

Step 1 – Download MyCricket Live Score

Available on smart phones and tablets – search for MyCricket Live Score

Step 2 – Login, Download Match and Teams

Scorers need to obtain a User Name and Password from your club.

Adjust any scorer settings if required.

Search and Download your match

Start Match and make any adjustments to selected squads if required (see notes on Unknown Player)

Once setup all scoring can be completed Offline and it will save on your device – you can login later and upload the result when you're online

Step 3 – Finalise Result

At the conclusion, ensure you are connected to the internet and find the Scorecard. Select End Match -> Finalise Result and follow the prompts to select the Result. This will send all info to MyCricket.

Teams can edit Results in MyCricket Admin -> Enter Match Results / Player Scores
